DETAILED ACTION

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 54-67 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 54, lines 14-15 "oscillating preventing means" should be changed to – oscillation preventing means" in order to provide proper antecedent basis for claims 57, 61 and 64; in lines 20-21 "said pin being rigidly connected to said upright" contradicts lines 24-26, which states that the pin is "connected to said upright in such a manner as to be able to slide and turn". If "rigidly" was deleted from line 21, then the contradiction would be obviated.

In claim 58, lines 11-12 "a perfect fit" is vague since it is unclear what constitutes a perfect fit; and in line 12 "every possibility" is confusing and unclear.

In claim 60, line 7 "two coaxially opposed pins" is confusing in that it is not known what components these are. Applicant is requested to identify the reference numbers of the aforementioned coaxially opposed pins.

In claim 61, line 18 "perfect fits" is vague and confusing since it is unclear what constitutes a perfect fit and it is not clear what component the inclined ends are fit to.

In claim 62, line 3 "project" should be –projects--.

In claim 66, line 2 "wherein" is misspelled.

Claims 55-57, 59, 63-65 and 67 are indefinite in that they depend from an indefinite base claim.

Allowable Subject Matter

Claims 54-67 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
